

Model Arch Trimmer

Fast and easy removal of the arch or palate areas of gypsum and die stone models is achieved with the Ray Foster Model Arch Trimmer and SaburTooth Carbide burs.

Features

- Powerful, high-torque, permanent magnet motor with sealed ball bearings.
- Large, stainless steel work surface with generous venting for dust removal.
- 1-1/2" (38mm) hose connection, connects directly to 1-1/2" vacuum hose, no need for adaptors.
- Power output connection for automatic on/off of dust collector.
- Safety switch disconnects power when top is removed.
- Comes equipped with fast cutting SaburTooth Carbide Burs, 1 cylinder and 1 taper.
- Modern, attractive design
- Made in USA.

SaburTooth Carbide Burs

SaburTooth carbide burs feature razor sharp cutting "teeth" that resist loading while providing rapid stock removal. SaburTooth burs cut faster, last longer, and outperform other types of abrasives and conventional burs.

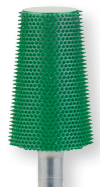

Item A420 Cylinder
Coarse Grit (blue)
3/4" dia. x 1-1/4" length
1/4" shank

Item A421 - 5% Taper Cylinder
Coarse Grit (blue)
3/4" dia. at base x 1-1/4" length
1/4" shank

Item A422 Cylinder
Fine Grit (green)
3/4" dia. x 1-1/4" length
1/4" shank

Item A423 - 5% Taper Cylinder
Fine Grit (green)
3/4" dia. at base x 1-1/4" length
1/4" shank

A complete trimming system is available with the Ray Foster CDC1 Cylone Dust Collector as Item MR20C

Specifications Item MR20

Width: 8-3/4" (222mm) Depth: 9" (228mm)
Height to work surface: 8-1/4" (210mm)
Overall height w/safety shield: 13" (330mm)
Net weight: 10-1/2 lb (4-3/4 kg)
Gross shipping weight: 12 lb (5-1/2 kg)
115 volt 50/60 hz standard
230 volt 50/60 hz optional for export
